About the first of Jone last, I had a negro man taken with a cough attended with resticioness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradinally grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption, and said it was useless to spend money in trying to cure him. Persons of Consumptive Habits.
